

Mission Statement

Innovate. Transform. Empower.

Our Vision

In an increasingly interconnected world, identity is the new perimeter. At Aventex, we help our customer implement a situation where every access request is verified, and every identity is protected. We also strive to design and implement solutions where security never compromises efficiency. Based in New York, the financial and technological epicenter of the world, we leverage our deep expertise in a handful of Access Management tools to help our clients meet the challenges of today's cyber threats.

Our Mission

Our mission is to provide strategic, customized product expertise that enables businesses to harness the full potential of technology. We selected a short list of best of breed point solutions, built partnerships with the vendors and developed a deep expertise on their tools. We partner with organizations of all sizes—from startups to Fortune 500 companies and federal agencies—to design, implement, and support IAM solutions. We curated

We achieve this by:

Delivering Strategic Solutions – We have a strong focus on authentication management and expertise in PAM and IGA.

Bridging Security and Business Agility – We strive to reduce friction, enhance compliance and offer scalable solutions.

Support products and Solutions – We are the largest support center for Evidian in North America with staff in Europe and USA, offering unparalleled SLA and support to our customers.

Our Core Values

- **Security-First Mindset** – We believe robust IAM is the cornerstone of cybersecurity.
- **Integrity** – We operate with transparency, honesty, and accountability in every engagement.
- **Accountability** – Taking ownership of actions with a sense of urgency, ensuring swift and reliable responses to both customer and organizational needs and priorities
- **Collaboration** – We believe in teamwork—both within our firm and with our clients—to achieve shared success.
- **Client-Centric Approach** – Your success is our success. We listen, adapt, and deliver solutions tailored to your needs.

Join Us in Shaping the Future of IAM

The digital landscape is changing. Identity is now the battleground for security. At Aventex we're not just consultants; we're defenders of trust.

Contact us today to secure your identities—before the attackers do.
